

Meet Journi. Your one place for **all things health 24/7.**

Journi is an integrated health care solutions platform that helps your employees organize and manage their family's health care, all in one place.

Between understanding benefits and navigating care options, health care can be daunting. Not to mention, costly. Journi is here to help.

Individualized, real-time access 24/7

Modular suite of self-directed care tools and a human support team driving affordable care options when needed:

- Find in-network care and check care history
- Nurse chat wherever you are
- Telehealth access to reach care when needed
- Expert Care Guides for support in health care needs

Intelligent navigation

Intuitive, health-literate, human-centered navigation offering proactive insights to:

- Optimize in network benefits utilization
- Highlight value-based options
- Enable shared decision-making.

Informed finances

Journi manages health care costs by offering tools and support for:

- Integrating and understanding your HSA benefit and savings
- Billing issue resolution by partnering with employees
- Analytics and reporting to proactively manage your employee population's needs

Concierge service

Journi delivers a concierge-level service experience through:

- Leading-edge technology platform and A.I. personalization
- Our certified Care Guides
- Specialized support network

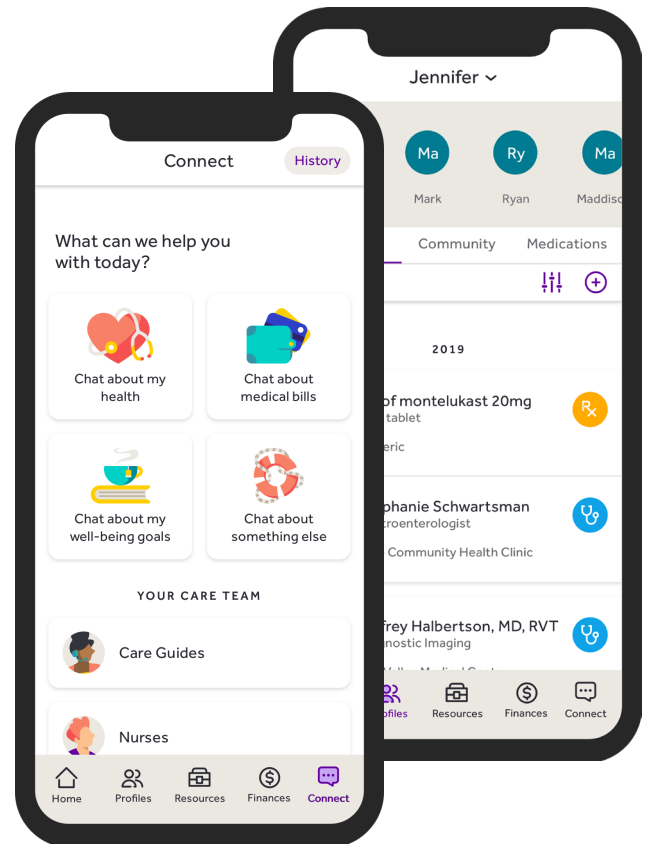

Personalized health & well-being

Journi is designed to empower employees and their families through self-guided tools and Care Guide support to achieve their healthiest state, while:

- Integrating employer sponsored programs and services
- Creating a healthier, happier workplace

We're with you. Every step of the way™
